Update on Effects caused by COVID-19 (Corona)

Dear Readers of the PPCHEM Journal,
Dear Friends of PPCHEM AG,

We sincerely hope that you all are well and will stay well!

Recognizing the ongoing and increased pandemic of the coronavirus (COVID-19) around the world, we have discussed all possible scenarios and options.

As you most probably can imagine the actual situation does not allow now any proper planning for the next couple of months. Therefore, we came to the joint conclusion to cancel all events in 2020.

We are extremely sorry for this, but as you certainly can imagine we have taken this decision not easy.

A proper forecast, when the situation will become back to somewhat "normal" worldwide (!), is at the time being so or so not possible at all. With this worldwide situation a proper planning for 2020 is not possible for the next "x" months, hence a complete cancellation for 2020 is certainly the best decision for all of us. Besides that, we strongly believe that due to those extraordinary circumstances the priorities in the work, as well as in the private life have been changed very much for all of you and us.

Nevertheless, we are absolutely convinced, that we can do these events again in the nearby future and so we will do!

As it depends on the worldwide situation, we cannot say when we will be able to re-start any event planning, but as soon as the situation allows, we will inform you all.

Therefore, please stay tuned with our homepage www.ppchem.com. Any changes and news will be announced immediately there, as well as we will keep you all updated via the social media and mailings.

We highly appreciate your patience, trust and continuous support and thank you very much for your understanding!

Wishing all of you and your families the very best, stay healthy and we will continue to stay in contact.

Sincerely

Tapio Werder
